Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Saturday 06 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry followed by widespread rain and snow from the east.

Today:
A mostly cloudy but dry start today. Some sunny spells during the morning, before clouding over with rain, often heavy, moving in from the east, covering most of the region by the evening. Turning colder later in the day. Maximum temperature 7 deg C (45 deg F).

Tonight:
The day's rain will continue moving south and west through the evening and night, increasingly turning to snow, before easing from the north later. Some icy patches likely. Minimum temperature -2 deg C (28 deg F).

Sunday:
Cloudy but mostly dry all Sunday, though the southeast may see the odd light shower at times. Very cold with a brisk easterly wind accentuating the bitter feel. Maximum temperature 2 deg C (36 deg F).

Outlook for Monday to Wednesday:
All three days mostly dry with plenty of sunny spells. The odd snow shower possible, especially further east. Remaining very cold throughout with a marked wind chill too.
